

SUMMARY OF PROPOSED UNIVERSITY REGULATION

6C2R-2.007 Use of Campus Facilities

The proposed amendment clarifies and reconciles existing terminology. It reorganizes and simplifies the existing Regulation specifically defining authority for various outside areas of campus and for specified facilities. The authority for granting permission to use a facility or area and for the policies governing such use is more clearly assigned to the responsible governing unit. Oglesby Union Guest Services is more clearly identified as the unit receiving all requests for use from outside entities. Rental for payment of university facilities and areas is no longer to be limited to spaces in a defined list and to conditions contained in the Regulation. Instead, a general rental policy shall be approved by the President governing rental of all university spaces.

Repetitious listing of requirements for various user groups was combined. Approval of use of public address systems was clearly made subject to approval of the Director of the Oglesby Union and specific type(s) of required insurance left to the determination of University Environmental Health and Safety.

All use is specifically made subject to the University's Non-Discrimination Policy and former references to political events and speeches were changed to political "campaign" events and speeches as more accurately describing the targeted type events.

The Chief of Police is given additional specific authority to authorize short term event use of certain types of vehicles and shelters.
