with due process and based on a citation history, when 3 or more parking citations are outstanding
against a responsible individual or if pending parking citations total $90.00 or more.

a. Upon immobilization of such motor vehicle, the officer or employee shall cause to be
placed on such vehicle, in a conspicuous manner, sufficient notice to warn any individual that such
vehicle has been immobilized and that any attempt to move such vehicle might result in damage to
the vehicle and is grounds for criminal charges for grand theft.

b. The individual responsible for the vehicle shall have the right to a probable cause hearing
before the chairperson of the Transportation Violations Appeals Board or his or her designee,
provided such a hearing is requested within 15 calendar days from the date the notice of immobilization is received. The purpose of the hearing is to determine if there is probable cause for continued detention of the vehicle. No hearing will be held unless requested in writing by the individual responsible for the vehicle or his or her agent at the Office of Transportation and Parking Services. The hearing shall be held within 72 hours from receipt of said written request, and the decision shall be issued in writing within 24 hours from the close of the hearing. In lieu of the probable cause hearing, or pending such hearing, where probable cause is found at such hearing, the individual responsible for the vehicle or his or her agent may obtain release of the vehicle by depositing security in the amount of immobilization charges and all delinquent fines and penalties to the Director of Transportation and Parking Services, or his/her designee.

c. If the chairperson or his or her designee finds probable cause to immobilize a vehicle, upon request of the individual responsible for the motor vehicle, a date shall be set for full evidentiary hearing before the Transportation Violations Appeals Board. Pending this hearing, the vehicle may be released as provided in (6) (b) above.

d. If no probable cause is found to impound a motor vehicle, it shall be released without requiring the individual responsible for the vehicle to pay the administrative charge for immobilization. If the motor vehicle was previously released upon payment of security, such payment shall be refunded.

e. Failure to request a probable cause hearing within 15 calendar days from the date of the notice of impoundment is received constitutes a waiver of said hearing and the vehicle shall be released only upon payment of the impoundment charges and delinquent fines or penalties.

f. The immobilization device or mechanism shall remain in place for 48 hours, unless the individual responsible for the vehicle has complied with subsection (b) above. If such compliance has not occurred within 48 hours, the vehicle shall be towed and impounded. This subsection does not preclude the towing in the first instance of the vehicle which, because of the number of
outstanding parking citations against it, is subject to towing and impoundment pursuant to the other provisions of this Regulation.

(b) Mounted bicycles shall be operated only on a roadway, bicycle path, bicycle lane, or dual use sidewalk.

FSU-2.011 Facilities Leasing.

(1) The purpose of this Regulation is to implement the delegated authority from the Board of Governors (BOG) to the Florida State University (FSU) found in BOG Regulation 17.001 with respect to leasing of space.

(2) The President or designee may enter into leases for space in a building or any part of a building for use by FSU or its direct-support organizations. However, Leases subject to Section 1010.62, Florida Statutes, relating to revenue bonds and debt, must be approved by the Board of Governors.

(3) The President or designee must first certify that there is no available and suitable university-controlled space within a reasonable distance of the need before approving any
lease. All leases will achieve best leasing value. “Best leasing value” means the highest overall value to the state based on objective factors that include, but are not limited to, rental rate, renewal rate, operational and maintenance costs, tenant-improvement allowance, location, lease term, condition of facility, landlord responsibility, amenities, and parking. Cost savings related to the university procurement processes are not sufficient justification for direct negotiation.

(4) Leases for space of 5,000 square feet or more in a privately owned building must be competitively procured. Competitive bids shall be awarded to the lowest responsible and responsive bidder; competitive proposals shall be awarded to the most advantageous responsible and responsive proposer based on all criteria in the proposal including price. The university may not negotiate with responding proposers unless the university makes a specific statement why this will achieve best leasing value. Cost savings related to the university procurement processes are not sufficient justification for direct negotiation.

(5) Competitive procurement shall not be required for the following:

(a) Renewal of leases procured under this Regulation where the specific renewal involved is provided in the initial lease, which was itself competitively procured, where such is required.

(b) Lease of less than 120 consecutive days which is for the purpose of securing a one-time special use of the leased property.

(c) Lease for nominal or no consideration.

(d) Competitive solicitations shall not be required to extend an existing lease of 5,000 or more square feet, if the extension is determined to be in the best interest of the University and the total of the extension does not exceed 11 months. If at the end of the 11th month the University still needs space, it shall be procured by competitive solicitation. However, if the University determines it is in its best interest to remain in space it currently occupies, the University may negotiate a replacement lease with the landlord if an independent market analysis demonstrates that the lease rates offered are within market rates for the space and the cost of the new lease does not exceed the cost of a comparable lease plus documented moving costs. The term of such replacement lease may not exceed the base term of the expiring lease.
The best interest of the University for this purpose shall be determined by the Vice President for Finance and Administration.

(e) Lease of educational facilities in an FSU affiliated Research and Development Park. However, as required by Section 1013.17, Florida Statutes, the Board of Trustees or designee must certify in writing that it is in the best university interests and that the exemption is not detrimental to the state.

(f) Leasing of specialized research, medical or educational facilities certified by President or President’s designee in writing that such leasing is available only from a single source and that compliance with competitive bid requirements would be detrimental to the university.

(g) In an emergency, when university/state-owned or leased space is destroyed or rendered uninhabitable by an act of God, fire, malicious destruction, or structural failure, or by legal action, upon certification by the President or designee that other University controlled space is not available and the term of any such lease does not exceed 18 months, provided the University may modify the lease to extend it on month to month basis for up to 6 additional months to allow completion of such construction or renovations.

(h) Leasing facilities in a hospital or other medical facilities, such as a medical office building, with which the University is affiliated.

(6) All measurement of potential leased space shall be based on the method of measurement used by the State University System for gross square feet as described in the current Physical Facilities Space File.

(7) Escalation Clauses Prohibited. A lease shall not contain a rental escalation clause or an open rental rate that permits an adjustment in the amount paid by the University based on the happening of a future event, such as a change in the Consumer Price Index or other economic indicator, without also including a ceiling on the total amount the rent may increase. For leases of ten years or more a process may be established within the terms of the lease that allow for determining and adjusting the rental amounts based on existing fair market leasing values at agreed upon milestones.
(8) Right-to-Terminate Clause Required. All leases for a term exceeding one (1) fiscal year shall include the following provision: “The State of Florida’s performance and obligation to pay under this Lease is contingent upon an annual appropriation by the Legislature.”

(9) Lease Form. All leases shall be prepared in accordance with this regulation and executed by the President or the President’s designee. The University uses a standard lease approved by the Senior Vice President for Finance and Administration and by the University General Counsel for form and legal content. Any deviations from the standard lease must be within the requirements of this Regulation and will acquire specific approval of these same parties.

(10) For leases or renewal of leases of space of 5,000 square feet or more, Lessor must disclose to FSU all owners of the leased property to ensure compliance with conflict-of-interest provisions of Chapter 112, Florida Statutes.

Good cause shall include illegality, impossibility of performance, or a clear and inadvertent error in the response preparation, but shall not include a responder’s lack of profitability or financial loss resulting from the competitive solicitation. Neither modification nor withdrawal will be permitted at any time if the result of such action is prejudicial to the fairness of the competitive procurement process or a monetary or educational interest of the University.

(d) Competitive Solicitation Evaluation. Responses to a competitive solicitation shall be evaluated based on the requirements set forth in the competitive solicitation. The requirements of the competitive solicitation include but are not limited to criteria such as price, inspection, samples, quality, testing, workmanship, convenience, experience, delivery and suitability for a particular purpose. Those criteria that affect the price shall be objectively measured to the extent practicable. In cases where more than one commodity or contractual service is listed on a response to a competitive solicitation, the University is not required to consider all alternates or options, nor do they have to be considered in sequence.

(e) Right to Reject Competitive Solicitation Responses and Waive Minor Irregularities. The University reserves the right to reject any and all responses to a competitive
solicitation. The University also reserves the right to waive minor irregularities in an otherwise valid response. A minor irregularity is a variation from the competitive solicitation terms and conditions, which does not affect the price offered, or give the responder an advantage or benefit not enjoyed by other responders or does not adversely impact the business or educational interests of the University. The University shall correct mistakes clearly evident on the face of a response, such as an error in arithmetic or extension of pricing. In the case of extension errors, calculations based upon multiples of the unit price, the unit price shall prevail.

(f) Receipt of Fewer Than Two Responsive Offers to a Competitive Solicitation. When fewer than two responsive offers are received in response to a competitive solicitation exceeding the competitive solicitation threshold, the Procurement Director, or a designee, shall review the circumstances surrounding the solicitation to determine if a second call for a competitive solicitation is in the best interest of the University. If it is determined that a second competitive solicitation is not in the best interests of the University, the University may proceed with the acquisition based on the one responsive offer received or may proceed to negotiate with any other possible source including the sole responder.

(g) Preferences for Florida-Based Suppliers.

1. Preferences for Personal Property. When a University awards a contract to purchase personal property, other than printing, by competitive solicitation a preference shall be provided to suppliers with a principal place of business in Florida (“Resident Suppliers”) as follows:

   a. If the responsible and responsive supplier who submits the lowest bid, the most advantageous proposal, or the best value and is one whose principal place of business is outside of Florida and whose state or political subdivision grants a preference for the same purchase to a local supplier then the University shall grant that same preference to the lowest or best responsible and responsive Resident Supplier.

   b. With respect to Invitations to Bid, if the lowest responsible and responsive bid is from a supplier whose principal place of business is in a state that does not grant a preference
for the purchase to a supplier in such state, then the University shall grant a preference in the amount of five percent (5%) to the lowest responsible and responsive Resident Supplier.

c. For suppliers whose principal place of business is outside of Florida, such suppliers must, at the time of submitting its bid, proposal or reply, provide a written opinion from a licensed attorney in its state specifying: (a) the preferences(s) granted by the state or political subdivision, as applicable, under the laws of that state to suppliers whose principal place of business is in that state or political subdivision; and (b) how the preference is calculated. The failure to submit the written opinion may be waived as non-material if all suppliers responding to the solicitation have principal places of business outside of Florida.

d. The supplier’s principal place of business, as represented by the supplier in its bid or reply, may be relied upon by the University without further inquiry. If the University determines that a supplier has misrepresented its principal place of business, the supplier’s bid, proposal or reply shall be rejected.

e. For the purpose of paragraph (g) 1., “personal property” shall be defined as goods and commodities, but not real estate, intellectual property or services.

2. Preferences for Printing. When a University purchase printed materials by competitive solicitation, a preference shall be provided to Resident Suppliers as follows:

a. If the lowest responsible and responsive bid received pursuant to an Invitation to Bid is from a supplier whose principal place of business is outside of Florida, then the University shall grant a preference to the lowest responsible and responsive Resident Supplier in the amount of five percent (5%) if the University has determined that the printing can be performed by the Resident Suppliers at a level of quality comparable to that obtainable from the supplier submitting the lowest bid whose principal place of business is outside of Florida.

b. For purposes of subparagraph (g) 2.a. the level of quality shall be determined by whether a supplier satisfies the minimum specification requirements as set forth in the Invitation to Bid.

3. Method of Calculating Five Percent Preference. If the competitive solicitation is an Invitation to Bid, then an amount equal to five percent (5%) of the total base
bid and any alternates shall be deducted from the base bid and alternates, as applicable, of the lowest responsible and responsive Resident Supplier’s bid.

4. Determining a Supplier’s Principal Place of Business. A supplier’s “principal place of business” is determined as follows:

   a. If the supplier is an individual or a sole proprietorship, then its “principal place of business” is in the state where the supplier’s primary residence is located.

   b. If the supplier is a business organization, then its “principal place of business” is in the state where the majority of the supplier’s executive officers direct the management of the supplier’s business affairs.

5. Federally Funded Projects. Purchases made to perform specific obligations under federally funded projects shall not be subject to this preference requirement to the extent the application of a preference is not allowed under applicable federal law or regulation.

6. If no preference exists or where after application of the preference here, two or more responses are equal in every respect, the University will use a toss of a coin to select the successful response.

   (h) Purchases from Contractors Convicted of Public Entity Crimes. The University shall not accept a competitive solicitation from, or purchase commodities or contractual services from, a person or affiliate who has been convicted of a public entity crime and has been placed on the State of Florida’s convicted supplier list for a period of 36 months from the date of being added to the convicted supplier list.

   (i) Competitive Solicitation Notice of Award. After evaluating the responses to a competitive solicitation, the Procurement Director, or a designee, shall make a determination as to the successful response based on the method of award contained in the competitive solicitation. A notice of award shall be posted electronically by posting a Competitive Solicitation Tabulation Sheet, or other appropriate document, on the Web Site of the Procurement department that issued the competitive solicitation, on the date and time listed in the competitive solicitation or as soon as reasonably possible after the responses are
evaluated. The Competitive Solicitation Tabulation Sheet shall contain the competitive solicitation name, the name of each responder including those whose responses were rejected and the dollar amount(s) of each response, the date and hour that it was posted and the date and hour that the posting period ends. The Notice of Award Web Site shall be maintained by each department with delegated procurement responsibility and shall be available for public inspection at all times during regular University business hours. Any person who is adversely affected by the University’s decision or intended decision regarding a competitive solicitation shall file in writing a protest which shall be received in the procurement department responsible for issuing the competitive solicitation before the end of the 72-hour posting period shown on the Notice of Award, or within 72 hours after the protestant received actual notice by other delivery of the decision, whichever occurs first. The 72-hour period excludes the hours in weekends and University holidays. Weekends are deemed to begin at 5 PM on Friday and end at 8 AM on Monday. Holidays are deemed to begin at 5 PM at the end of regular workday before the holiday or 8 AM after a Sunday if the holiday begins on a Monday and end at 8 AM on the next regular University workday. Posting of the proposed Notice of Award does not establish a contract between the University and the proposed supplier.

(j) The following shall apply to every solicitation for the procurement of commodities or contractual services: "Respondents to this solicitation or persons acting on their behalf shall not contact any employee or officer of the Florida State University Board of Trustees, a University Direct Support Organization, or The Florida State University concerning any aspect of this solicitation, except in writing to the Chief Procurement Officer or as provided in this solicitation document, from the date of release of this solicitation through the end of the 72-hour period following the University’s posting of the notice of intended award, in accordance with BOG Regulation I8.002. Violation of this provision may be grounds for rejecting a response."

(8) Competitive Solicitation Registration. Individuals and businesses shall register with the University’s Procurement Services department to receive competitive solicitations, a contract or a purchase order from the Central procurement department. The University does not guarantee that a business will receive notice of a competitive solicitation for a particular commodity or contractual service for which they have registered as a supplier and are
responsible for monitoring posted notices which interest them. The opportunity to participate in a competitive solicitation is a privilege not a right.

(9) Procurement actions that are not subject to the competitive solicitation process include:

(a) Emergency Purchases. When the President, or a designee, determines in writing that a condition exists that threatens the health or safety of person(s) or animal(s) or the preservation or protection of property or the continuance of a vital University function, the University will proceed with an emergency purchase without a competitive solicitation. Due to the critical nature of the procurement, emergency purchases do not require that the action be posted in the Notice of Award Web Site for 72 hours. An emergency purchase shall be limited to the purchase of only the type of items and quantities that are required for a time period sufficient to relieve the immediate threat and shall not be used to meet long-term requirements.

(b) Sole Source Purchases. Commodities or contractual services available from a single source shall be exempted from the competitive solicitation process. A sole source document shall be publicly posted in the Notice of Award Web Site for 72 hours, unless the sole source is covered under the annual certification list provided in (6)(d).

19. Contracts or services provided by not-for-profit support and affiliate organizations of the University, direct support organizations, health support organizations, and faculty practice plans.

(10) Suppliers Excluded from Competition. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, projects or programs for future implementation, or competitive solicitation documents, shall be excluded from competing for such procurements.

(11) Standard of Conduct

(a) It shall be a breach of ethical standards for any employee of the University or member of the University Board of Trustees to accept, solicit, or agree to accept a gratuity of any kind, form or type in connection with any contract for commodities or services. It shall also be a breach of ethical standards for any potential contractor to offer an employee of the University a gratuity of any kind, form or type to influence the development of a contract or potential contract for commodities or services.

(b) It shall be a breach of ethical standards for any employee to participate in the selection, award, or administration of a contract if a real or apparent conflict of interest would be involved. Such a conflict would arise when the employee, officer, or agent, any member of his immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in the firm selected for an award.

In lieu of a bond, the University will accept a cashier’s check or money order in the amount of the bond. Failure of the protesting contractor to file the required bond, cashier’s check or money order at the time of filing the formal protest shall result in the denial of the protest.

If the commodity or contractual service is purchased as a result of a competitive solicitation, all contemplated renewal periods must be included in the competitive solicitation, and evaluated as part of the award evaluation process, including a cost algorithm to determine the cost to the university during renewal periods. Renewal(s) of a contract may not exceed 5 years or twice the term of the original contract, whichever is longer. This provision is not intended to apply retroactively; existing contracts entered into prior to January 1, 2017, including any specified renewal period(s) may continue in accordance with existing contract terms.

The President, or a designee, shall have the authority to enter into deferred payment agreements, in accordance with Board of Governors debt policies. The University may utilize the State of Florida Department of Financial Services Consolidated Equipment Financing Program if it is deemed advantageous. When the Consolidated Equipment Financing Program is used, the University will submit the contract to the Department of Financial Services for the purpose of pre-audit review and approval prior to acceptance. No such agreement shall establish a debt of the State or shall be applied to the faith and credit of the State; nor shall any agreement be a liability or obligation of the State except from appropriated funds.

In order to promote cost-effective procurement of commodities and contractual services, the University may enter into contracts that limit the liability of a supplier
consistent with Section 672.719, F.S. and consistent with the lawful limits of state sovereign immunity.

The notification shall also provide that should the supplier fail to perform within the time provided, that: It will be in default; it will be removed from the University’s supplier and competitive solicitation lists; and the University will re-procure the commodity or service from another source, which will obligate the supplier to pay all re-procurement costs and costs for cover.

(d) A brief description of the efforts made to collect the debt.

(e) Any other pertinent information
Form of payment. Payment of indebtedness may be made by the individual or the individual’s representative by money order, certified or cashier’s check, cash, or payroll deduction from wages. Collection by personal check is discouraged but will be accepted.

Means of Collection. The University Controller shall verify the amount of the indebtedness with the department head originating the charges and debt and establish the manner of its recovery. The University Controller may employ one or more of the following means of collecting monies due the University:

(a) Issue University collection letters.

(b) Hold transcripts or current grades.

(c) Withhold registration privileges at Florida State University.

(d) Turn delinquent accounts over to a collection agency.

(e) After consultation with the University Attorney refer the debt to the Department of Banking and Finance of the State of Florida for prosecution by the appropriate state attorney under provisions of Section 17.20, Florida Statutes, or for assignment to a debt collection agent if that Department determines that approach to be cost effective.

(f) Seek a voluntary wage deduction from the employee. Each debt will be handled on an individual case basis. In the interest of fairness and equity, it is acknowledged that an individual who has incurred an indebtedness may be unable to pay the total amount in a lump sum. If such is the circumstance and the individual agrees to equitable partial payments over a limited period of time, the Controller may prepare a promissory note and proposed schedule of payments for the employee’s signature. Any deduction authorization shall be kept in the permanent personnel file of the employee.

(g) If the employee refuses to voluntarily pay the indebtedness to the University, the Controller may initiate involuntary deductions from future salary payments due the employee, using the set-off procedures specified below until the total amount of indebtedness has been collected.
Set-off Procedures. Involuntary wage deductions based on the common-law right of set-off shall be considered and used only where other reasonable efforts have failed.

(a) The employee who owes a debt to the University will be advised by certified letter (restricted delivery), or by email to the employee’s official University email address, from the University Controller’s Office that the employee has ten calendar days from the receipt of the letter or email to either clear the account, make satisfactory payment arrangements, or submit documentary evidence disputing the employee’s debt. The employee shall be given an opportunity during normal business hours of the University to review the documentation and evidence of the employee’s indebtedness to the University and has the right to submit documentary evidence to refute the indebtedness within a reasonable time therefrom.

(b) If no arrangements for payment have been made by the end of the ten calendar daytime period, all evidence of the employee’s debt will be reviewed by the University Controller.

(c) If, upon that review, a verification of the debt is made and it is determined that an agreement as to voluntary payments or voluntary wage deductions cannot be reached with the employee, the employee will be notified by U. S. mail, or by email to the employee’s official University email address, of the fact set-off procedures will be implemented on a date certain, not sooner than 10 work days from receipt of the notice, and of the amount and duration of the deductions from the employee’s salary warrant. The employee will also be advised of the employee’s right to any administrative review of the decision to set-off the employee’s debt and deduct funds from the employee’s paycheck, including judicial review of any final University decision, pursuant to Florida Rule of Appellate Procedure 9.190, applicable to review of quasi-judicial decisions of an administrative body not subject to the Administrative Procedure Act, by filing a petition for certiorari review within thirty (30) days of the date of the final University decision.

Amount of Payroll Deduction under Set-off Procedures.
(a) In the event that the total amount of the debt is less than 10% of the employee’s biweekly gross salary, the full amount of the employee’s debt may be deducted in the first or second pay period following the date of notification in subsection (6) above.

(b) If the amount of the debt is greater than 10% of the employee’s gross biweekly salary, the amount deducted each period may be up to 10% of the employee’s gross salary but will not exceed 20% of the employee’s net salary after mandatory deductions.

(9) In the event an employee-debtor is terminated, abandons employment, voluntarily leaves the University, or dies while in University employment, the amount of the debt, up to the total of the net salary less $1.00, will be deducted from the employee’s final salary payment or from the employee’s terminal leave payments.

(10) Settlement of Delinquent Accounts. The University President or his designee may settle delinquent accounts after all reasonable and lawful collection attempts have failed.

(11) Write-off of Uncollectible Debts. The President may write-off a debt as uncollectible after all reasonable and lawful collection attempts have failed.

If the employee’s banking information needs to be updated, the employee can use OMNI Self-Service or submit an updated Direct Deposit Authorization Form to the Office of Payroll Services.

(d) Employees are not required to re-submit a Direct Deposit Authorization Form when changing hiring authorities, pay plans or job titles within Florida State University.

(e) By Federal Regulations, Work-Study students are not required to participate in the Direct Deposit Program but are strongly encouraged by Florida State University to participate.

(f) The direct deposit authorization remains in effect in the Office of Payroll Services until it is changed or canceled by: (i) the employee either through OMNI Self-Service or in writing to the Office of Payroll Services, (ii) the employee’s legal representative in case of the employee’s legal incapacity, (iii) the employee’s financial institution, or (iv) Florida State University.

(3) Employees who are unable to establish an account at a financial institution must contact the Office of Payroll Services to discuss their options for obtaining cash pay (debit card) account with one of the area’s local financial institutions.

**Definition:**

**Distance Learning Student:** A distance learning student is one who is coded as such in the Office of the University Registrar. Note that students are assessed distance learning rates when they are coded as a distance learner student based on policies established by the Registrar but that all students enrolled in online courses are not automatically deemed distance learners for tuition purposes.

**Tuition and Fees:** For the purposes of this regulation, tuition and fees refers to the standard charges assessed pursuant to State Statute, Board of Governors and Florida State University Regulation.

**FSU-2.0241 Tuition and Fees for Repeated Enrollment in College Credit Courses.**

(1) A student enrolled in the same undergraduate college-credit course more than twice shall pay tuition and fees at 100 percent (100%) of the full cost of instruction and shall not be included in the calculations of full-time equivalent enrollment for funding purposes.

(2) Students who withdraw from or fail a class due to extenuating circumstances of extreme financial burden, significant university error, documented medical emergency, call to active medical emergency or what would be considered an act of God or force majeure under standard contract law will be granted an exception only once for each class.
FSU-2.02410  Internet Payment of Tuition and Fees.

Students may make payment of tuition and fees via the Internet. Customers using this mode of payment will be assessed a convenience fee for this service. The convenience fee is non-refundable.

Specific Authority BOG Regulation 1.001(3) (j); Reg. Procedure July 21, 2005. Law Implemented 1001.74(24) FS. History–New 5-5-03.

FSU-2.02411  Third Party Tuition and Fee Billings.

(1) Students who have a third-party agency (i.e., employer, governmental agency, etc.) paying all or part of their tuition and fees are required to submit an Agency Billing Card plus a Letter of Authorization from the third-party billing agency by the fifth (5th) day of each semester. Students who do not meet these requirements will be assessed the late payment fee.

(2) Students who have a third-party billing agency paying all or part of their tuition and fees and who are also receiving financial aid but have not completed the requirements in subsection (1) above by the fifth day of the semester, will have their tuition and fees deducted
from their financial aid. In such instances, a refund will not be issued until after the third-party billing agency payment is received by The Florida State University.

(3) If the agency has not paid tuition and fees by the end of the semester, the student is required to pay all outstanding tuition and fees in full before any additional university services will be granted and the late payment fee will be assessed.

(4) If a third-party billing agency pays only a portion of the student tuition and fees due, the student is responsible for ensuring that any remaining balance of tuition and fees are paid from other financial aid sources or other personal sources by the fee payment deadline. Failure to meet this requirement will result in the assessment of the late payment fee.

(5) Agency billings for tuition and fees must be reported on the student’s financial aid application as a financial resource to avoid an over-award of financial aid from occurring. Any financial aid over-award will be on the student’s billing statement and must be repaid before further university services will be granted.

(6) It is the primary responsibility of the student to ensure that their tuition and fees are paid in full or properly deferred by published deadlines to avoid assessment of the late payment fee.

Specific Authority BOG Regulation 1.001(3) (j); Reg. Procedure July 21, 2005, Law Implemented 1009.24(12) (e) FS. History—New 5-5-03.

FSU-2.02412 Financial Aid and Tuition and Fee Payment.

Financial aid students must settle their tuition and fee bill according to the published deadline by verifying that either financial aid has arrived on time or a deferment has been granted until the financial aid does arrive.
FSU-2.02413 Florida Prepaid College Program.

(1) Students paying tuition and fees using the Florida Prepaid College Program must pay the balance, if any, before the fee payment deadline to avoid being charged a late payment fee.

FSU-2.027 Fraud Prevention, Detection, Reporting, and Investigation

(1) Intent. Florida State University is committed to the establishment of an environment and culture that promotes honest and accountable actions and the elimination of fraudulent activities in all areas of administration and operation. Further, the University reaffirms its longstanding duty and responsibility to aggressively combat and respond to fraudulent activity.

(2) Purpose. An antifraud framework is established for the prevention, detection, reporting, and investigation of alleged fraudulent activities affecting the University. This framework provides a definition of fraud, a university-wide statement and response to attempted and committed fraudulent acts, applicability of the framework to the University community, responsibility for designing, implementing, and overseeing the framework, processes for reporting alleged fraud, responsibility for investigating alleged fraud and reporting investigation conclusions, protections to persons reporting suspected fraud, actions to be taken when alleged fraud is identified or substantiated, and a requirement for annual evaluation and reporting to the Board of Trustees on the status of the framework.

(3) Definition of fraud. An intentional misrepresentation or concealment of a material fact for the purpose of obtaining a benefit that would not otherwise be received, or inducement of another to act upon the intentional misrepresentation or concealment to his or her detriment. Fraud can be committed through many methods, including mail,
wire, telephone, and the internet. Fraudulent acts may include, but are not limited to:

(a) Benefitting from the use or misappropriation of University funds, securities, property, supplies, or other assets;

(b) Receiving reimbursement as a result of falsification of time sheets, travel claims, and other expenses;

(c) Benefitting from the use of sponsored research personnel, property, labs, and other resources to develop software and other products and then selling the products through one’s own private company;

(d) Receiving a benefit as a result of participating in the falsification of a record or document or an application for employment, admission, a student loan, scholarship, or grant; and

(e) Diversion or use of University people, time, money, or other assets for private use.

(4) University-wide statement and response to attempted and committed fraudulent acts. The University will establish and maintain strong internal controls to provide reasonable assurance that fraudulent acts committed against the University will be discovered. Further, the University affirms a “zero-tolerance” for persons determined to have committed a fraudulent act resulting in the loss or misuse of University resources. In support of this statement, the University will fully assist and cooperate in all applicable investigative processes and legal proceedings associated with alleged fraudulent activities.

(5) Applicability of the antifraud framework to the University community. Each employee, volunteer, board member, student, and vendor contracting or doing business with the University is responsible for compliance with this regulation. Such compliance requires an awareness of fraud prevention and detection activities, timely reporting of suspected fraudulent activity, and cooperating with investigative agencies by providing information and such other assistance as requested.

(6) Responsibility for designing, implementing, and overseeing the antifraud framework and strategies. The University Vice President for Finance and Administration shall be responsible for designing and overseeing the antifraud framework and strategies. The Vice President for Finance and Administration shall develop polices for the prevention, detection, reporting and investigation of suspected fraudulent activity. Prevention and detection policies shall include the development and adoption of strong internal controls. Administrators, deans, directors, and department heads are responsible for implementing and monitoring the antifraud framework and for making recommendations to the Vice President for Finance and
Administration to further strengthen controls. Committees may be established as needed to assist in policy development, to communicate the antifraud framework, and to periodically report on progress or impediments to implementation.

(7) Processes for reporting alleged fraud. Suspected fraudulent activity should be reported to the Office of Inspector General Services (OIGS) which has primary responsibility for conducting fraud investigations. The OIGS should be notified directly, by mail or e-mail, through the OIGS website, or through the University fraud hotline. The OIGS will notify the Florida State University Police Department if reported fraudulent activity is indicative of a crime. The University Police Department and the OIGS will work together to coordinate efforts with external law enforcement and prosecutorial agencies as appropriate. Even in those cases where fraud is not substantiated, the OIGS may continue to investigate to determine whether administrative violations have occurred which warrant further University action.

(8) Protections afforded persons reporting suspected fraud. Faculty, staff, students, and others reporting suspected fraud in good faith will be provided maximum protections in accordance with applicable law, regulation, and policy.

(9) Actions to be taken when alleged fraud is identified or substantiated. University actions in response to identified or substantiated fraud may include appropriate disciplinary action, recovery of assets/losses, referral to law enforcement/prosecuting agencies, and/or review and remediation of internal control deficiencies and policies. Credible allegations that pose significant financial or reputational risk to the University shall be reported to senior management, the Board of Trustees, or the Board of Governors, as considered appropriate. Documents collected during the course of an investigation identified as confidential pursuant to law shall remain confidential. Other documents collected that do not have confidentiality protections in law shall remain confidential until such time as the final investigative report is issued.

(10) Any significant and credible allegation(s) of fraud, waste, mismanagement, misconduct, and other abuses made against the university president or a university board of trustees member shall be timely reported to the Board of Governors (BOG), through the BOG Office of Inspector General and Director of Compliance (OIGC). Such allegations will be handled as follows:

2. The OIGC will perform the investigation.

(b) At the conclusion of such investigation, the report shall be submitted to the subject, who shall have twenty (20) working days from the date of the report to submit a written response. The subject’s response and the investigator’s rebuttal to the response, if any, shall be included in the final report presented to the chair of the board of trustees and the Board of Governors’ Audit and Compliance Committee. In the event the board of trustees chair is the subject, the report shall be submitted to the chair of the board of trustees audit and compliance committee.

(11) Any significant and credible allegation(s) of fraud, waste, mismanagement, misconduct, and other abuses made against the university chief audit executive or chief compliance officer shall be timely reported to the board of trustees and Board of Governors through the BOG OIGC. Such allegations will be handled in the same manner as provided for in (11) (a) and (b) above.
